Summary

A passionate Computer Science student with hands-on experience in networking, and cybersecurity. Have improved practical skills through real-world college projects, DEPI internal scholarship training, and online certifications. Motivated about network management, secure systems design, mobile and web application development using modern technologies.

Education

Menoufia University

• Student of Computer Science IT department

Sep. 2022 – July 2026

Grade: 3.3

Experience

National Telecommunication Institute (NTI), Remotely -Fortinet security

Aug. 2025 – Nov. 2025

- FortiGate firewall basics ,Policy configuration ,VPNs
- Threat management ,Intrusion prevention systems (IPS)
- Web filtering, antivirus, and application control

Egypt Digital Pioneers Initiative (DEPI) , Cairo - Network Administration

Jul 2024 - Oct 2024

- Completed intensive training in **network infrastructure, routing & switching, firewall configuration, and cybersecurity fundamentals.**
- Hands-on experience with **Cisco devices, Fortinet security appliances**, and real-world network topologies.
- Gained practical experience in **VLANs, NAT, DHCP, OSPF, EIGRP, ACLs, VPNs**, and **network troubleshooting.**

Skills

-
- **Networking:** Routing & Switching, Device Configuration, Network Security configuration
 - **Programming Languages:** C++, HTML, CSS, JavaScript, Transact-SQL , Kotlin ,python
 - **Tools & Platforms:** kali Linux , GitHub, VS Code, Android Studio , SQL Server, Windows Server Nmap, Wireshark , Burp Suite •
 - **Databases:** Microsoft SQL Server

- **Network Security** : FortiGate / FortiOS 7.4 ,Security Policy Management & NAT, VPN Technologies (IPsec, SSL VPN),(IPS), Network Traffic Analysis & Log Monitoring

Soft Skills

Problem Solving , Teamwork ,Communication, Adaptability , Collaboration, Attention to Detail, Time Management

Courses & Certificates

FCP – FortiGate 7.4 Administrator Fortinet

- Administered FortiGate firewalls using FortiOS 7.4 in enterprise network environments
- Designed, configured, and maintained security policies, firewall rules, and NAT
- Implemented and managed IPsec and SSL VPNs for secure remote and site-to-site connectivity
- Configured routing (static & dynamic), interfaces, VLANs, and security zones
- Performed traffic monitoring, log analysis, and threat investigation using FortiGate logging and diagnostic tools
- Troubleshoot network and security issues to ensure high availability and performance

IBM SkillsBuild Cybersecurity Certificate

- 60-hour intensive training (Self-paced, 2025) Covered: - Risk & compliance - Vulnerability assessment - Network & cloud security - Security operations - Incident response & digital forensics Earned 7 micro credentials through capstone projects and assessments.

Achievements & Projects

Hotel Network Infrastructure (DEPI Graduation Project)

- Technologies: VLANs, OSPF, EIGRP, ACLs, DHCP, SSH, HSRP, VPN, PAT, Port Channels
- Designed and implemented a complete network infrastructure for a hotel environment focusing on performance, security, and scalability. Key configurations and technologies included: -
- VLAN segmentation for department isolation and improved broadcast efficiency
- Router-on-a-Stick and Inter-VLAN routing for controlled communication
- DHCP server setup on routers and multilayer switches for IP allocation
- Security protocols like SSH, switchport security, and ACLs for access control
- Dynamic routing using OSPF, EIGRP, and route redistribution
- PAT configuration for internet access with a single public IP
- VPN site-to-site tunnel for secure remote access to internal services
- HSRP and Port Channels to ensure network redundancy and high availability

Languages & interest

- **English:** (Intermediate, B2)
- **Like always troubleshooting problems related to Information Technology and keep it secure**
